(54) Title: LACTALBUMIN FOR INHIBITING ANGIOGENESIS

(57) Abstract: The use of a biologically active complex of α -lactalbumin, selected from HAMLET (human α -lactalbumin made lethal to tumour cells) or a biologically active modification thereof, or a biologically active fragment of either of these, in the preparation of a medicament for use in the treatments of proliferative disease and in particular of mucosal cancers such as bladder cancer or malignant melanoma, as well as tumours of internal organs such as glioblastoma, as well as in the inhibition of angiogenesis.
